<sup>1</sup> *A student is considered to be in school and continuously enrolled during academic year holidays and vacation periods, as well as during the summer between academic years, even if not enrolled in a summer session, as long as there is reason to believe that the student intends to enroll for the next regularly scheduled term. For example, a student should not be reported as “withdrawn” at the end of the spring term if he or she is expected to re-enroll for the fall term.*
